SUMMARY

MCA candidate with a strong foundation in full-stack web development and practical experience building production-oriented academic and examination management platforms. Experienced in developing responsive frontend applications, RESTful APIs, database-driven systems, authentication workflows, and scalable web applications using React.js, Node.js, Express.js, MySQL, Next.js, and modern web technologies. Hands-on experience through multiple university-level software projects and full-stack development internships. Strong interest in software engineering, backend development, and building reliable real-world applications.

EDUCATION

Periyar University, Salem
Master of Computer Applications (MCA) — 2025 – 2027 | Pursuing

AVS Arts & Science College, Omalur
Bachelor of Computer Applications (BCA) — 2022 – 2025 | 75%

EXPERIENCE

Full Stack Development Intern — June 2026 – June 2026
Tech S Cube

- Completed a hands-on full-stack development internship focused on building an online compiler project.
- Contributed to frontend and backend development, application workflows, and integration of core compiler functionality.

Web Development Intern — December 2023 | 15 Days
Optimus Technocrats (India)

- Completed a 15-day web development internship involving practical project work and modern web technologies.

PROJECTS

1. Periyar University Academic Portal – Schools & Departments | Technologies: Next.js, Node.js, Express.js, MySQL

- Designed and developed a responsive, database-driven academic portal for managing schools and department information.
- Implemented a structured full-stack architecture supporting scalable content management and production deployment.

2. Computer Science Department – PG Entrance Examination Portal | Technologies: React.js, Python FastAPI, MySQL

- Developed a production-oriented online examination platform supporting candidate registration, authentication, examination workflow, and result processing.
- Developed interactive examination features for reliable candidate activity and answer submission.

3. Periyar University – Ph.D. Entrance Examination Portal | Technologies: React.js, Python FastAPI, MySQL

- Designed and developed an online examination platform supporting candidate verification, authentication, question delivery, examination management, and result processing.
- Engineered the application to support reliable concurrent candidate activity and answer submissions.

TECHNICAL SKILLS

- React JS
- Node js + Express
- MongoDB
- Docker
- HTML
- Python
- MYSQL
- Git & Git Control
- **AWS**
- CSS

CERTIFICATIONS

- The Joy of Computing using Python — NPTEL | Jan – Apr 2026
- Cyber Security Audits Course — Infosys Springboard | September 2024
- First Place — State-Level Technical Symposium — AVS College | 2026
